February 15, 2011

To Green Energy Innovations;

We would like to thank you for your prompt completion of our recent Energy Efficient Lighting Retrofit. We are quite pleased with the quality of lighting in our Office and Warehouse. Our Electric bills have already shown a reduction in the Kilowatt- hours less than one year ago on our most recent bill

We are also please that the entire project came in at the exact amount you have estimated, our co-pay should be recovered from savings on our bills in a short period of time.

We are happy to have passed on this information about the program to our neighbor and pleased to know how many of them are now enrolling in the program.

Thank you again for your assistance in helping our company in our goal to be more energy efficient,

Sincerely,

Helen Yun
Manager
